

teWalk » Spoznavajmo Kras« (»Let us to know a Carst region«) at Lipa on 6 of April 2008

This is the main walk of our group. Nearly all the year we have preparations for this. In our country Slovenija here are only a few IVV walks. It is why we are attending this kind of walks in other countries: Italy, Austria, Croatia... So we are promoting Slovenian IVV stempel (IVV SLO).

Slovenia is little but beautiful country extending from Alps to Sea. We are trying to show it's dynamic nature with IVV guided walks. (The proposes are in preparation!).

The walk »Spoznavajmo Kras« takes place at Lipa, a picturesque little village with particularities of Carst architecture.

The trails are three: 6, 12 and 18 km. The big part of a walk is leading on footpaths or white roads, only a little part on asphalt road. The sightseeing is good. If the weather permits as Julian Alps as the Adriatic Sea are visible. The very known wine of the Carst area »teran« must be tasted (at our refreshment point at the end of a walk!).

Lipa, a village bellow the hills. The highest is Trstelj (643 m).

Inscription point.

Two big friends

A detail from a walk.

A refreshment point called "Ada". All the goods are free.

Walkers are enjoying in the forest.

The president of our group Franko is giving instructions about a trail.

Our guest was an Italian group from Terni. They were offering their goods.

It was tasty!

At the end "the walkers meal"

A cooks team.

Award for the biggest group was given to Podisti Monselicensi (Italy).

You are welcome!
