

Lipa - Temnica, 16.9.2009

Manfred Trettin a manager of Koala world club made a stop in Slovenija during his Europe IVV tour. Soon our people made a friendship with these nice, cheerful walkers. Thank you, Manfred, to make us a good experience!

Our meeting in Tauplitz, soon after Slovenija, pointed at friendship between IVV walkers from different parts of the world.

The beginning of a walk was at Lipa, a little and nice carst village.

This is a pine tree. Franko, a president of Društvo pohodniki Triglav, shows a wound on a tree. It's a cut into the bark. So the tree was pitching (taring). Times ago the poor carst people ameliorated their existence with selling the tar.

A refreshing point in the middle of the wood.

At the top of the hill Trstelj (643m).

From Trstelj we descended to Lipa. Our walk was proceeding to Temnica at the location of old military railway.

The typical plant of the Carst, sumach. Its because of this plant, which in autumn is red, the Carst is "as in fire".

The vineyard of "teran" typical carst vine stock and good medicinal red vine.

The passion plant.

The social meeting took place in this building.

Church built by hand tilled stone.

The drinking a toast to friendship between two clubs: Na zdravje!

Thanks and wishes for new meetings!
